Introduction

This document is designed to provide Year 11 pupils and their parents/carers with information about individual school sixth forms and further education colleges in Lancashire. This should help to support any decisions they are making about their futures and what each institution is able to provide.

Due to the ongoing Covid-19 situation, not all school sixth forms and colleges are able to offer events and activities, such as open days, campus tours and taster days. However, the information in this document shows that there continues to be a wide range of information and support which can be accessed either through websites, on social media or over the phone.

If young people are still undecided about what they want to do when they finish school, this document shows what the school sixth forms and colleges across Lancashire have to offer and how they can still support young people at this time – as well as how to make an application for a place.

With regard to apprenticeships, a separate transition document has been produced which focuses on apprenticeship providers based in the county. That document should be used alongside this one to ensure that young people are made aware of the provision and opportunities offered by these providers.

For information on school sixth forms and colleges not included within this document, such as those located outside of Lancashire, we would advise you to contact them directly or look on their websites and social media pages for information, advice and support.

For information on any apprenticeship providers not included within the supporting apprenticeship document, we would advise you to contact them directly or look on their websites and social media pages for information, advice and support. Alternatively, you can contact the Lancashire Work Based Learning Forum at info@lancsforum.co.uk and they will be happy to assist wherever possible.

School sixth forms, colleges and apprenticeship providers are here to support all young people in making the right decisions for their futures. Please be assured that they are taking all steps necessary to provide a safe learning environment for all their students during this uncertain time.
