

What will I learn in Geography?

How can energy be sustainably sourced at different scales?

Where do we find natural resources?

How can the development gap be reduced?

Why does development vary?

Why is the populations of Asia so diverse?

How is Asia being transformed?

What are the consequences of uneven development?

Is GDP enough to measure development?

How has Africa's past shaped its present?

What are the challenges and opportunities in Africa?

What processes shape river landscapes?

What are the opportunities and challenges of deindustrialisation in the UK?

What factors influence India's development?

How can urban life be more sustainable?

What opportunities and challenges has Liverpool faced due to urban change?

What factors have caused rapid urban growth in Lagos?

What features are formed on the coast?

Why are parts of the UK coast eroding so rapidly?

Fieldwork - Does the River Wyre fit the Bradshaw Model?

Why do rivers flood?

What are the opportunities and challenges of cold environments?

What are the characteristics of cold environments?

What are the opportunities and challenges in the TRF?

Will climate change make tropical storms more frequent?

Should we be worried about UK wildfires?

What is the weather like in the UK?

What is the difference between weather and climate?

Why is our world becoming more urban?

Why do people migrate?

How can we describe different changing populations?

What is Geography?

Year 11

What are the characteristics of a tropical rainforest?

Typhoon Haiyan
What are the lessons learned?

How are the challenges being managed in Lagos?

Does economic development limit the effects of the earthquake?

Fieldwork: Has gentrification improved socioeconomic opportunities and the environment in Liverpool?

How can we use hard and soft engineering in the UK?

What happens when the land meets the sea?

What are the challenges of urbanisation in Asia

What are the positives and negatives of India's rapid development?

Year 10

How does the world move under our feet?

How are humans adapting to climate change?

What are biomes and where are they found?

How do tropical storms form?

What happens during tropical storms?

Should we frack in Lancashire?

Should we import energy from Russia?

How can we reduce poverty around the world?

Should the government continue to invest in coastal management?

How is Asia being transformed?

Why is the populations of Asia so diverse?

Year 9

How can we improve life in LIC cities?

Fieldwork: Where should we put a new school bench?

Where are earthquake and volcanoes found?

Can people ever be safe from tectonic hazards?

What is globalisation?

How does a chocolate bar link to the world?

Is renewable energy the answer?

What drives the local economy in the UK?

Year 8

How can we describe different changing populations?

Should we panic about global population?

What causes tectonic plates?

How has our knowledge of the world change over time?

How can we locate places around the world? Atlas skills

Can we stop rivers flooding?

How can locate places around the UK?

Why are rivers so important?

How can we use map skills to help find our way? OS map skills

How has Africa's past shaped its present?

What are the challenges and opportunities in Africa?

What processes shape river landscapes?
